## NKHS Book Shelf

There is not a lot of individual subject matter written about New Kent County in a single book or pamphlet. Most information is mentioned in a book compiled with another county or state that makes the reader think that no one stopped to visit New Kent, everyone was just passing thru.

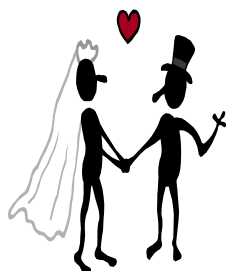

This catalog represents a lot of challenging and compelling work by New Kent Historical Society members. Despite these obstacles, patient and careful research was rewarded by the books and pamphlets you see listed here. We will continue to research our lovely county and pass our rich heritage on to you.

**Let's us bring your family to you!**
